

U.S. Bank One Card Program for NACO

Increase efficiency and control with an integrated payment solution

More than ever, organizations are focusing on minimizing costs and maximizing performance. U.S. Bank is uniquely positioned to empower the Nebraska Association of County Officials (NACO) to effectively manage their payment solutions with unmatched efficiency and control.

The U.S. Bank One Card Program for NACO combines purchasing, travel and fleet card programs into a single streamlined payment solution. The one card integrates transactions into one process, one staff, one card issuer and one invoice. Plus, it provides NACO members access to innovative tools that make vendor payments easier and safer, with the control and oversight counties need.

Save time, money and resources with more efficient payment processes

U.S. Bank helps NACO members drive out costs and do more with fewer resources including:

- Automate payment and reconciliation processes
- Simplify administrative tasks and cost savings
- Reduce paperwork including requisitions, purchase orders, invoices and checks
- Enhance cash management with cycle-based payments

Maintain control and program visibility

U.S. Bank payment solutions provide NACO with built-in levels of security. The one card is the right solution to:

- Manage purchasing, travel and entertainment (T&E) and vehicle-related expenses with spending controls and point-of-sale restrictions
- Centralize payment and liability
- Monitor adherence with spending policies and negotiated volume thresholds
- Integrate transaction data seamlessly with your financial systems
- Tailor the program to meet the needs of your county

Leverage data with access tools

To effectively manage expenses, counties need tools that are comprehensive, yet easy to implement and use. The U.S. Bank NACO One Card Program gives you access to a full suite of access tools that allows you to analyze your organization's information and turn it into valuable data.

U.S. Bank Access® Online – An award-winning web-enabled reporting and program management tool offering a feature-rich platform that can easily be configured and deployed to meet the unique needs of NACO members. It enables you to take control of account setup and maintenance activities and offers convenient, secure online access to data anytime, anywhere.

At no additional cost, Access Online Payment Plus brings the power of cardless payments to counties across Nebraska. Because payments are processed only when approved and for the amount authorized, Payment Plus provides NACO members with additional security and control.

U.S. Bank Expense Management – A comprehensive, data-rich expense management solution. It provides valuable transaction data you can use to further streamline travel payments, enhance program oversight and empower cardholders. Moreover, it complements other U.S. Bank tools such as U.S. Bank Access Online.

U.S. Bank Payment Analytics – Now you can monitor 100 percent of your county's transactions to achieve better control and visibility over spending. As a result, you'll have more time and resources available to focus on strategic activities.

For more information

From commercial cards to access tools to complete electronic procure-to-pay systems, U.S. Bank offers NACO the solutions they need to cut costs, manage vendor payments and operate more efficiently. For more information, please contact your U.S. Bank Relationship Manager or visit usbpayment.com.
