## Active Shooter Preparedness Webinar

The Cybersecurity and Infrastructure Security Agency, Region 7, Nebraska invites you to join a two-hour security webinar on Thursday, December 2, 2021 to enhance awareness of and response to an active shooter event. Preparing employees for a potential active shooter incident is an integral component of an organization's incident response planning. Because active shooter incidents are unpredictable and evolve quickly, preparing for and knowing what to do in an

active shooter situation can be the difference between life and death. Every second counts.

Objectives:

- Discuss the elements of active shooter incident response planning with guidance from expert instructors.
- Describe common behaviors, conditions, and situations associated with active shooter events.
- Discuss how to recognize potential workplace violence indicators.
- Provide information about best practices, communications protocols, and resources that will assist stakeholders to develop or enhance their emergency planning, preparedness, and response to active shooter incidents.

**CarbonCure Lunch & Learn**  
Building A More Sustainable Nebraska

IN PARTNERSHIP WITH:

Did you know that embodied carbon is expected to account for almost half of

total carbon emissions from new construction over the next 30 years?

CarbonCure beneficially repurposes carbon dioxide to reduce embodied carbon without compromising concrete quality or competitiveness. Over 12 million cubic yards of concrete made with CarbonCure have been supplied from over 375 concrete plants around the world.

Join Brandon Williams (CarbonCure) and Jeff Mulder (Nebraska Concrete & Aggregates Association) for a brief presentation outlining the difference between embodied carbon versus operational carbon, and explore the sustainable shift among the building & design community.

**Date:** Wednesday, November 17, 2021

**Venue:** Werner Park (12356 Ball Park Way, Papillion)

**Time:** 11:00 AM – 1:00 PM CDT
