## "Energy Block Grant Implementation and Reporting" Webinar Scheduled for October 8

More than 450 counties were eligible for direct formula grants from the U.S. Department of Energy under the Energy Efficiency and Conservation Block Grant program (EECBG). In the early fall, counties will begin implementing their energy saving projects. This webinar will explore implementation and reporting requirements for counties receiving direct formula grants. The EECBG program was funded through the American Recovery and Reinvestment Act (ARRA) and counties must therefore adhere to reporting requirements under both ARRA and the Department of Energy. A county case study will demonstrate project implementation. The Department of Energy will use the same case study to demonstrate accurate and complete reporting requirements.
